

# SAFETY DATA SHEET according to regulation (EC) No.1907/2006

## SECTION 1: Identification of the substance/mixture and company

### 1.1. Product Identifier

Product code: E1QAC  
Name: Acid Cleaner

### 1.2. Product Uses

A powerful cleaner based on hydrochloric acid together with inhibitors and synergists. Removes rust stains, cement residues, mortar residues, rust deposits, verdigris, urinal scale, plaster residues, lime residues, efflorescence and slime stains. This material will affect acid sensitive materials e.g. nylon and some enamels. Not recommended for Stainless Steel.

### 1.3. Supplier

Quadralene Ltd  
Bateman Street  
Derby  
DE23 8JL  
  
Phone: 01332 292500  
Web: www.quadralene.co.uk  
Fax: 01332 295941  
Email: info@quadralene.co.uk

### 1.4. Emergency telephone number

Emergency telephone number: 01332 292402

## SECTION 2: Hazards identification (Undiluted product)

### 2.1. Classification of the mixture

According to 1272/2008

Health Hazards: Eye Dam. 1, Skin Corr. 1B, STOT SE 3

Physical Hazards: Met. Corr. 1

Environmental Hazards: Not Classified

### 2.2. Label elements

According to 1272/2008

Danger

H314 Causes severe skin burns and eye damage

H318 Causes serious eye damage

H335 May cause respiratory irritation

H290 May be corrosive to metals

P260 Do not breathe mist/vapours/spray.

P262 Do not get in eyes, on skin, or on clothing.

P271 Use only outdoors or in a well-ventilated area. P234 Keep only in original container.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower.

P304 + P340 IF INHALED: Remove person to fresh air and keep at rest in a position comfortable for breathing.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing.

P405 Store locked up.

### 2.3. Other hazards

### **SECTION 3: Composition/ information on ingredients**

<b>Material</b>	<b>CAS number</b>	<b>Level</b>	<b>Hazards (see section 16)</b>	
Hydrochloric Acid	17-2-1	15-30%	Skin Corr. 1B, STOT SE 3	H314 H335
Benzalkonium Chloride	68424-85-1	1-5%	Acute Tox. 4, Aquatic Acute 1, Skin Corr. 1C	H302 H312 H314 H400

### **SECTION 4: First aid measures**

#### **4.1. Description of first aid measures**

- Eye contact: Immediately flush eyes with water, holding eyelids apart, for at least 10 minutes. Seek medical assistance immediately.
- Skin contact: Remove contaminated clothing, wash skin with water and seek medical attention immediately.
- Inhalation: In case of overexposure, remove to fresh air, keep warm and at rest, seek medical assistance immediately.
- Ingestion: Do not induce vomiting. If conscious, give water to drink. Seek medical assistance immediately.

First aider PPE: As required to prevent contact. See section 8.2.

#### **4.2. Most important symptoms and effects, both acute and delayed**

- Eye hazard: Will cause severe irritation and damage.
- Skin hazard: Causes burns.
- Respiratory hazard: Irritating to respiratory system.
- Other hazards: Contact with hypochlorite (bleach) liberates toxic chlorine gas.

#### **4.3. Indication of any immediate medical attention and special treatment needed**

No special treatment or attention required additional to section 4.2.

### **SECTION 5: Fire fighting measures**

Flammability hazard: Not combustible.

#### **5.1. Extinguishing media**

No special requirements. As appropriate for the fire.

#### **5.2. Special hazards arising from the mixture**

No specific hazards arising from the mixture. May produce acidic fumes in fire.

#### **5.3. Advice for firefighters**

No special measures arising from the mixture.

### **SECTION 6: Accidental release measures**

#### **6.1. Personal precautions, protective equipment and emergency procedures**

Take precautions to avoid contact. Use Personal Protective Equipment as detailed in section 8  
Provide ventilation. Spillage may make floors slippery. Keep the area clear. Observe regulations.

#### **6.2. Environmental precautions**

Prevent spills from entering water courses.

#### **6.3. Methods and material for containment and cleaning up**

Small quantities, flush to foul sewer with a large quantity of water.  
Large quantities, neutralise with soda ash and flush to foul sewer or transfer to containers for disposal.

#### **6.4. Reference to other sections**

Observe the advice given in sections 8 and 13

## **SECTION 7: Handling and storage**

Shelf life: 24 months in original sealed containers.

### **7.1. Precautions for safe handling**

Do not mix with other products. Observe good industrial hygiene.

### **7.2. Conditions for safe storage, including any incompatibilities**

Store in a cool, dry place protected from frost and away from alkalis and strong oxidising agents. Store upright in original containers. Recommended storage temperature 5-25°C.

### **7.3. Product Uses**

Mix 1 part of cleaner with 3-4 equal parts of water. Apply this solution by brush or cloth, and keep deposits thoroughly soaked for several minutes. For heavy deposits, a wire brush may be used. Small parts may be dipped into the solution. Rinse thoroughly with clean water after treatment. This material will affect acid sensitive materials e.g. nylon and some enamels. Not recommended for Stainless Steel. Do not mix with other products. Please refer to product safety data sheet before use. Use only as directed.

## **SECTION 8: Exposure controls/personal protection**

### **8.1. Control parameters**

Workplace exposure limits

Hydrogen Chloride 2 mg/m<sup>3</sup> WEL 8 hour TWA (UK EH40)

### **8.2. Exposure controls**

These measures are suggested on the basis of general use methods and may not be appropriate to all potential uses of the product. The user is responsible for carrying out a full risk assessment of their specific processes and systems of work.

Eye protection: Wear a full face visor to BS EN 166 39B  
Hand protection: Wear pvc or latex gloves. Exact choice of glove depends on specific risk assessments.  
Body protection: As necessary to prevent contact.  
Respiratory protection: Use in a well ventilated area. If high vapour concentrations are likely, fume extraction may be required.  
Other protection:

Personal protective equipment:

Exact PPE requirements should be determined from a specific risk assessment of the processes being carried out.

Environmental protection: Prevent mixture from entering water courses.

## **SECTION 9: Physical and chemical properties**

### **9.1. Information on basic physical and chemical properties**

Appearance: Clear colourless to yellow liquid.

Odour: Sharp, acidic.

pH (typical): 1.4 1% in water (typical).

Initial boiling point: 57°C.

Flash point: Not applicable.

Auto-ignition temp: Not applicable.

Viscosity: Free flowing.

Explosive properties: Not applicable.

Oxidising properties: Not applicable.

Vapour pressure: 150 mbar at 20°C.

Solubility: Miscible with water.

Relative density at 20° C (typical): 1.138

### **9.2. Other information**

## **SECTION 10: Stability and reactivity**

- 10.1. Reactivity** Incompatible with strong oxidising agents and alkalis. Do not mix with hypochlorite (bleach) or other preparations.
- 10.2. Chemical stability** Stable under recommended storage conditions.
- 10.3. Possibility of hazardous reactions** No hazardous reactions are expected to occur.
- 10.4. Conditions to avoid** Extremes of temperature. Contact with reactive metals liberates hydrogen gas.
- 10.5. Incompatible materials** Incompatible with strong oxidising agents and alkalis. Do not mix with hypochlorite (bleach) or other preparations.
- 10.6. Hazardous decomposition products** None known.

## **SECTION 11: Toxicological information**

### **11.1. Information on toxicological effects**

Acute toxicity:

Skin corrosion/ irritation:

Serious eye damage/ irritation:

Respiratory or skin sensitisation:

Germ cell mutagenicity:

Carcinogenicity:

Reproductive toxicity:

STOT single exposure:

STOT repeated exposure:

Aspiration toxicity:

### **Routes of exposure/ symptoms**

Eye contact: May cause permanent damage.

Skin contact: Causes burns.

Inhalation: Irritating to respiratory tract.

Ingestion: Moderate toxicity, will cause irritation and damage to gastro-intestinal tract due to acidity.

## **SECTION 12: Ecological information**

- 12.1. Toxicity** May affect aquatic organisms due to low pH if released into water courses untreated.
- 12.2. Persistence and degradability** Water based product. All organic ingredients are biodegradable when well diluted.
- 12.3. Bioaccumulative potential** Not expected to bioaccumulate
- 12.4. Mobility in soil** This product has high water solubility
- 12.5. Results of PBT and vPvB assessment** Contains no ingredients classified as PBT or vPvB.
- 12.6. Other adverse effects** No other adverse effects are anticipated.

## **SECTION 13: Disposal considerations**

### **13.1. Waste treatment methods**

Dispose of surplus product and packaging via a licenced chemical waste contractor.

## **SECTION 14: Transport information**

- 14.1. UN number** 1760      **14.2. UN proper shipping name** Corrosive Liquid, N.O.S.
- 14.3. Transport hazard class(es)** 8      **14.4. Packing group** 2
- 14.5. Environmental hazards**
- 14.6. Special precautions for user** No specific precautions.
- 14.7. Transport in bulk according to Annex II of MARPOL 7 3/78 and the IBC Code** Not available for bulk transport.

## **SECTION 15: Regulatory information**

### **15.1. Safety, health and environmental regulations/ legislation specific for the substance or mixture**

Contents according to (EC) regulation No.648/2004 on detergents:

**15.2. Chemical safety assessment**     A chemical safety assessment has not been carried out.

## **SECTION 16: Other information**

Hazard statements relating to ingredients (see section 3)

H314 Causes severe skin burns and eye damage

H335 May cause respiratory irritation

H302 Harmful if swallowed

H312 Harmful in contact with skin

H400 Very toxic to aquatic life

Date of issue:     22 March 2015     Issue number:     1     Date of printing:     15 May 2015

This product should be stored, handled and used in accordance with good industrial practice and in conformity with legal regulations. The information in this data sheet is based on the present state of our knowledge and is intended to describe products from the point of view of safety requirements and thus should not be construed as guaranteeing specific properties. It is for users to satisfy themselves of the suitability of this product for their own applications.
