SAFETY DATA SHEET according to regulation (EC) No.1907/2006

SECTION 1: Identification of the substance/mixture and company

1.1. Product Identifier

Product code: S3CLC

Name: Action Foam

1.2. Product Uses

Chlorinated foam cleaner for cleaning walls, ceilings and complex surfaces.

1.3. Supplier

Quadralene Ltd
Bateman Street
Derby
DE23 8JL

Phone: 01332 292500
Web: www.quadralene.co.uk
Fax: 01332 295941
Email: info@quadralene.co.uk

1.4. Emergency telephone number

Emergency telephone number: 01332 292402

SECTION 2: Hazards identification (Undiluted product)

2.1. Classification of the mixture

According to 1272/2008

Health Hazards: Eye Dam. 1, Skin Corr. 1B
Physical Hazards: Met. Corr. 1
Environmental Hazards: Aquatic Acute 1 Aquatic Chronic 3

2.2. Label elements

According to 1272/2008

Danger

H314 Causes severe skin burns and eye damage
H318 Causes serious eye damage
H400 Very toxic to aquatic life H412 Harmful to aquatic life with long lasting effects
H290 May be corrosive to metals
P260 Do not breathe fume/gas/mist/vapours/spray.
P273 Avoid release to the environment.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P301 + P330 + P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower.
P304 + P340 IF INHALED: Remove person to fresh air and keep at rest in a position comfortable for breathing.
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P234 Keep only in original container. P390 Absorb spillage to prevent material damage. P405 Store locked up.

2.3. Other hazards

SECTION 3: Composition/ information on ingredients

Material	CAS number	Level	Hazards (see section 16)	
Sodium hydroxide	1310-73-2	2.0-5.0%	Skin Corr. 1A	H314
Sodium hypochlorite	7681-52-9	1-5%	Aquatic Acute 1, Skin Corr. 1B	H314 H400
Nonionic surfactant	1643-20-5	1-5%	Aquatic Acute 1, Aquatic Chronic 2, Eye Dam. 1, Skin Irrit. 2	H315 H318 H400 H411

SECTION 4: First aid measures

4.1. Description of first aid measures

Eye contact: Immediately flush eyes with water, holding eyelids apart, for at least 10 minutes. Seek medical assistance immediately.

Skin contact: Remove contaminated clothing, wash skin with water and seek medical attention immediately.

Inhalation: If irritation occurs, remove to fresh air, keep warm and at rest, seek medical attention immediately.

Ingestion: Do not induce vomiting. If conscious, give water to drink. Seek medical assistance immediately.

First aider PPE: As required to prevent contact. See section 8.2.

4.2. Most important symptoms and effects, both acute and delayed

Eye hazard: Causes burns.

Skin hazard: Causes burns.

Respiratory hazard: Not a hazard in normal use. Breathing spray mist may cause irritation.

Other hazards: Contact with acids liberates toxic chlorine gas.

4.3. Indication of any immediate medical attention and special treatment needed

SECTION 5: Fire fighting measures

Flammability hazard: Not combustible.

5.1. Extinguishing media

No special requirements. As appropraite for the fire.

5.2. Special hazards arising from the mixture

No specific hazards arising from the mixture.

5.3. Advice for firefighters

No special measures arising from the mixture.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Take precautions to avoid contact. Use Personal Protective Equipment as detailed in section 8

Spillage may make floors slippery. Keep the area clear. Observe regulations.

6.2. Environmental precautions

Prevent spills from entering water courses.

6.3. Methods and material for containment and cleaning up

Large quantities, contain and absorb or pump into suitable containers for disposal.

Small quantities, flush to foul sewer with a large quantity of water.

6.4. Reference to other sections

Observe the advice given in sections 8 and 13

SECTION 7: Handling and storage

Shelf life: 3 months in original sealed containers.

7.1. Precautions for safe handling

Do not mix with other products. Observe good industrial hygiene.

7.2. Conditions for safe storage, including any incompatibilities

Store in a cool, dry place protected from frost and away from acids and strong oxidising agents. Store upright in original containers. Recommended storage temperature 5-25°C.

7.3. Product Uses

Store in a cool dark place and use within two months of supply. Use a 1-5% solution in water, applied via foam generation or pressure washing equipment. Recommended contact time is 10 minutes. Do not allow the solution to dry on. Rinse well with clean water. Not suitable for alkali sensitive surfaces such as aluminium. Do not mix with other products. Please refer to product safety data sheet before use. Use only as directed.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Workplace exposure limits

Sodium hydroxide	2mg/m³	WEL 15 min STEL (UK EH40)
Chlorine	0.5ppm	WEL 15 min STEL (UK EH40)

8.2. Exposure controls

These measures are suggested on the basis of general use methods and may not be appropriate to all potential uses of the product. The user is responsible for carrying out a full risk assessment of their specific processes and systems of work.

Eye protection:	Wear a full face visor to BS EN 166 39B
Hand protection:	Wear pvc or latex gloves. Exact choice of glove depends on specific risk assessments.
Body protection:	As necessary to prevent contact.
Respiratory protection:	Use in a well ventilated area, avoid breathing spray mist, wear a protective mask to EN149 if necessary.
Other protection:	

Personal protective equipment:

Exact PPE requirements should be determined from a specific risk assessment of the processes being carried out.

Environmental protection: Prevent mixture from entering water courses.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance: Colourless liquid

Odour: Characteristic, chlorine

pH (typical): 11.5 1% in water (typical).

Initial boiling point: 100ºC.

Flash point: Not applicable.

Auto-ignition temp: Not applicable.

Viscosity: Free flowing.

Explosive properties: Not applicable.

Oxidising properties: Contains hypochlorite.

Vapour pressure: 17.5mm Hg at 20ºC.

Solubility: Miscible with water.

Relative density at 20° C (typical): 1.094

9.2. Other information

SECTION 10: Stability and reactivity

10.1. Reactivity Incompatible with oxidising agents, acids and alkali sensitive metals such as aluminium. Contact with acid leberates

10.2. Chemical stability Stable under recommended storage conditions.

10.3. Possibilty of hazardous reactions Containers can pressurise due to the generation of chlorine gas.

10.4. Conditions to avoid Extremes of temperature.

10.5. Incompatible materials Incompatible with oxidising agents, acids and alkali sensitive metals such as aluminium. Contact with acid leberates chlorine gas.

10.6. Hazardous decomposition products Chlorine

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity:	Based on available data, the classification criteria are not met.
Skin corrosion/ irritation:	Mixture is classified as [….]. See section 2.
Serious eye damage/ irritation:	Mixture is classified as [….]. See section 2.
Respiratory or skin sensitisation:	Does not contain any ingredients classified as Sensitising.
Germ cell mutagenicity:	
Carcinogenicity:	
Reproductive toxicity:	
STOT single exposure:	Does not contain any ingredients classified as STOT SE.
STOT repeated exposure:	Does not contain any ingredients classified as STOT RE.
Aspiration toxicity:	

Routes of exposure/ symptoms

Eye contact:	Causes burns.
Skin contact:	Causes burns.
Inhalation:	Breathing spray mist may cause irritation.
Ingestion:	Moderate toxicity, will cause irritation and damage to gastro-intestinal tract due to alkalinity.

SECTION 12: Ecological information

12.1. Toxicity This product has microbiocidal properties. Large quantities may affect biological treatment plants. Very toxic to aquatic life with long lasting effects

12.2. Persistence and degradability All oganic ingredients are biodegradable when well diluted. Surfactants used comply with biodegredation criteria, see section 15.1.

12.3. Bioaccumulative potential Not expected to bioaccumulate

12.4. Mobility in soil This product has high water solubility

12.5. Results of PBT and vPvB assessment Contains no ingredients classified as PBT or vPvB.

12.6. Other adverse effects No other adverse effects are anticipated.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Process effluent can normally be discharged to foul sewer (subject to consent limits).

Dispose of surplus product and packaging via a licenced chemical waste contractor.

SECTION 14: Transport information

14.1. UN number 3266 **14.2. UN proper shipping name** Corrosive Liquid, basic, inorganic, N.O.S.

14.3. Transport hazard class(es) 8 **14.4. Packing group** 2

14.5. Environmental hazards Product is environmentally hazardous

14.6. Special precautions for user No specific precautions.

14.7. Transport in bulk according to Annex II of MARPOL 7 3/78 and the IBC Code Not available for bulk transport.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/ legislation specific for the substance or mixture

Contents according to (EC) regulation No.648/2004 on detergents:

Chlorine based bleaching agen <5%

Nonionic surfactants <5%

Disinfectant

The surfactant(s) contained in this preparation comply with the biodegradability criteria laid down in Regulation (EC) No 648/2004 on detergents.

Data to support this assertion are held at the disposal of the competent authorities of the member states and will be made available to them at their direct request.

15.2. Chemical safety assessment A chemical safety assessment has not been carried out.

SECTION 16: Other information

Hazard statements relating to ingredients (see section 3)

H314 Causes severe skin burns and eye damage

H400 Very toxic to aquatic life

H315 Causes skin irritation

H318 Causes serious eye damage

H411 Toxic to aquatic life with long lasting effects
